“Onduline Avrasya, A.S Turkey is growing day by day worldwide due to its durability, designing and perfection. Like other countries, Onduline Avrasya, A.S. in Pakistan has received good response and seeks more distributors to expand its wings to other regions and cities”

Onduline Avrasya, A.S Turkey has recently conducted its annual sales meeting in Northern Cyprus, headed by Chief Executive Officer (CEO) Burhan Karahan where the company discusses the future strategy and plan to expand its businesses worldwide. Onduline Avrasya, A.S Turkey is growing day by day worldwide due to its durability, designing and perfection. Like other countries, Onduline Avrasya, A.S. in Pakistan has received good response and seeks more distributors to expand its wings to other regions and cities.

#### Introduction about Onduline Group:

Onduline Avrasya A.S, is the latest manufacturing facility of French Onduline Group, they currently produce and distribute a wide range of products including Onduline PPHR Corrugated and Asphalt Roofing Sheets, Onduvilla Bituminous Roofing Tiles, Isoline & Rufoline Under sheeting, Bituline modified Bituminous waterproofing Membranes, Bardoline asphalt shingles and Fondaline damp proofing membranes. Onduline Avrasya mainly exports to Central Asia, the Caucasus and Middle East.

Onduline PPHR sheets are being used since 60 years in over 70 countries. There are many advantages in using roofing product Onduline over the conventional galvanized iron or steel or asbestos roof sheets, i.e. Onduline does not rust nor break, is available in a large range of colors, is easy to fix, has thermal and acoustic properties and is lightweight.

Onduline is probably the most flexible, versatile and economical roofing and cladding material in the world. During the past few years, we have found great application for Onduline in Kazakhstan, Uzbekistan, Turkmenistan, Kirghizistan, Tajikistan, Azerbaijan, Georgia, Armenia, Qatar, Bahrain, Dubai, Kuwait, Saudi Arabia, Lebanon, Syria, Jordan, Iraq, Iran and other parts of the world for housing, agricultural, industrial buildings, etc.
